

ACCESSING PAGES

1. Sign in if necessary (See [Page 1: "Signing In"](#)).
2. Locate and click **"Pages"** on the sidebar.

3. The Pages Library will open.

The screenshot shows the WordPress dashboard for 'Full Scope Creative'. The 'Pages' menu item is selected in the left sidebar. The main content area displays the 'Pages' library with an 'Add New' button. A notification banner at the top indicates that the 'Real Testimonials Pro' license key has expired and provides a link to 'renew license key'. Below this, a 'WP Rocket' notice suggests clearing the cache if plugins have been enabled or disabled. The 'Elementor Pro Data Updater' section shows a database update process running in the background, with a 'Click here to run it now' button. At the bottom, a summary of page counts is shown: 'All (16) | Published (16) | Cornerstone content (0) | Orphaned content (6) | Stale cornerstone content (0)'. Below the summary are filters for 'Bulk actions', 'All dates', 'All SEO Scores', and 'All Readability'. A list of pages is displayed, including 'Title', 'About — Elementor', 'Blog — Elementor', 'Contact — Elementor', and 'Graphic Design — Elementor'.
