

WIDGETS: REARRANGING SECTIONS AND INNER-SECTIONS:

1. If you have multiple sections, and you want to rearrange where each section is located, find the section you would like to relocate.
2. Next, click and hold the **six dots** at the top of the section. You can now move the section above or below another section until you find where you want it located.

3. A blue highlighted area will appear. Drop the section inside the highlighted area.

4. Once you are satisfied with the new location, click the green **"Update"** button.
